Grading:
Class grades will be based on your grades on quizzes (1/3) and a final exam (2/3).
There will be three short quizzes, given in the 5th, 9th, and 13th week of the class. Each quiz will contain a number of short-answer items (dates, names, definitions, etc.) drawn from the class lectures, slides, and readings. We will distribute a study guide prior to each quiz. For purposes of determining your final grade, we will take only your two highest scores on quizzes, and throw out the low one.
The final exam will contain a number of items involving short-essay answers. We will distribute a study guide to help you prepare.
